Needle Exchange Supplies

Customised Packs

*d.*TM
NX

A fresh approach to needle exchange

Quality, choice and value in one great Needle Exchange Service

Our individually customised packs allow you to choose what you want for your clients, in discreet packaging that they'll accept. We'll put it all together, freeing up the time and effort that's best saved for your clients.

We even offer a choice of bags (paper or opaque re-sealable plastic).

We also stock a selection of top quality harm reduction items for you to choose, from our own excellent range of compact SHARPSBIN™ sharps containers, branded needles and syringes, through to detoxifying herbal/therapeutic tea selections. And because we take our time to source only the very highest quality products and purchase in bulk, we can offer all elements of our service at the right price for you. Furthermore, billing from only 1 supplier will also save your time and money.

SHARPSBIN™ sharps containers - Compact Range

Our compact 0.25–1 litre containers offer outstanding protection against penetrating sharps, some with a non-return web closing mechanism. All containers conform to BS7320.

Needles and syringes

All UK brands of sterile needles and syringes available at competitive prices.

Acidifiers

Pure pharmaceutical grade, BP approved citric acid (100mg) and ascorbic acid (300mg) double sterile packed in 5s.

Other harm reduction items

We stock a wide range of condoms, to help prevent sexually transmitted diseases, pre-injection swabs, filters and sterile cookers, all designed to reduce harm for your clients.

We can also supply all items as separates, depending on your requirements.

Needle Exchange Supplies

Needles and Syringes

A fresh approach to needle exchange

Quality, choice and value in one great Needle Exchange Service

We supply a large range of quality needles and syringes in all sizes. And because we take our time to source only the very highest quality products and purchase in bulk, we can offer all elements of our service at the right price for you. Furthermore, billing from only 1 supplier will also save your time and money.

Sterile Needles and Syringes

All brands of needles and syringes are available for you to choose from.

These include: BD, Terumo, Braun, Monoject, Pic and Chirana.

Colour Codes for Needle Identification

All needles come in sizes designated by the following colour standards:

Pink	18 gauge
Cream	19 gauge
Yellow	20 gauge
Green	21 gauge
Black	22 gauge
Blue	23 gauge
Orange	25 gauge
Brown	26 gauge
Grey	27 gauge

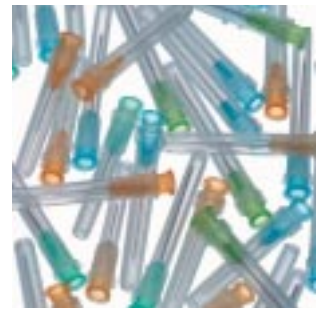

All this plus a choice of pre-injection swabs, filters, pharmaceutical grade acidifiers and sterile cookers, is just part of our great service designed to save your time and keep you in control, as well as to help reduce harm for your clients.

We can supply quality needles and syringes as part of our individually customised packs, or as separates depending on your needs.

Needle Exchange Supplies

SHARPSBIN™ sharps containers
- Compact Range

*d.*TM
NX

A fresh approach to needle exchange

Quality, choice and value in one great Needle Exchange Service

We are the preferred NHS supplier when it comes to sharps containers for the healthcare environment.

We can supply our SHARPSBIN™ sharps containers with our individually customised packs, or as separates depending on your needs. And because we take our time to source only the very highest quality products and purchase in bulk, we can offer all elements of our service at the right price for you. Billing from only 1 supplier will also save your time and money.

SHARPSBIN™ sharps containers - Compact Range

A compact range of containers designed specifically for the Needle Exchange environment.

Our compact 0.25–1 litre containers offer outstanding protection against penetrating sharps, some with a non-return web closing mechanism. All containers conform to BS7320. Labels can also be tailored to individual schemes.

SHARPSBIN™ comm-plus (DD479B) Nominal capacity 1 litre. This container has a sliding door with an aperture which will take up to 20ml syringes. Also available with a non-return web (DD479SCB) to ensure retention of needles and syringes.

SHARPSBIN™ mini (DD478B) Nominal capacity 0.6 litre. Familiar round shape from our standard SHARPSBIN™ sharps container range.

SHARPSBIN™ 0.6 (DD509B) Nominal capacity 0.6 litre. Features a funnel shaped aperture for the safe disposal of sharps.

SHARPSBIN™ pocket-black (DD441) Nominal capacity 0.5 litre. Discreet and pocket-sized container, aperture will take up to 20ml syringes. Also available with lockable lid and non-return web (DD441L).

SHARPSBIN™ worx (DD443) Normal capacity 0.25 litre. Will hold 15 x 1ml syringes, has a hinged lid and non-return web. Also available with a clear lid (DD443CL).

We also stock a range of larger containers (up to 60L capacity) to aid with the collection of the NX Compact Range. Please ask for further details.
