

A system for disposal of sharps at the point of use

- ▶ **POUDS®** means each of our containers can be safely and securely sited near the point of use, helping to reduce the risk of sharps or needlestick injuries, 23% of which occur after use and before disposal¹
- ▶ The **POUDS®** system helps reduce the risk of sharps injuries by incorporating simple to use trays and brackets that bring the SHARPSGUARD® range closer to the point of use
- ▶ The **POUDS®** system provides a range of trays, wall and trolley brackets, together with small container stands, all as part of our free added value service
- ▶ Our trolleys and 'kick-about's make 'hands free' repositioning of containers effortless giving you everything you need to dispose of your sharps safely at the point of use

Safety, Service and Support - Everyday

SHARPSGUARD®

The new name for the UK's favourite sharpsbin

The 'Safe Management of Healthcare Waste' guidance published by the Department of Health (2006) provides a (new) national colour-coded system for the management and disposal of sharps and other healthcare wastes

▶ Our containers have been developed to enable compliance with the requirements of the guidance by providing a range of new colour coded containers, lids and labels in a variety of sizes, whilst retaining the very highest standards expected by safety conscious healthcare customers

▶ The SHARPSGUARD® range is manufactured to the most stringent quality and safety standards: BS7320:1990, UN3291, AFNOR NFX 30-500 and ISO 9002

As always, we at Daniels are here to support our customers through a range of training materials and added value services to provide a simple and clear guidance of their requirements – making sense of change

▶ **OUR PROMISE**

Putting our customers first by delivering Safety, Service and Support - Everyday

▶ **OUR PEOPLE**

People who listen, support and deliver a working partnership

▶ **OUR PERFORMANCE**

Quality and safety you can rely upon

▶ **OUR VALUE**

Training and support materials for total peace of mind

▶ **OUR PRODUCTS**

Manufactured to the highest quality standards to comply with the best practice guidance and to meet the latest regulations

▶ **OUR PRICE**

Affordable and good value for money, with the option to achieve even greater savings for commitment

CONTAINER RANGE FOR SHARPS, EXCLUDING THOSE CONTAMINATED WITH MEDICINAL PRODUCTS

For incineration or other authorised process for EWC codes*:
18-01-01, 18-01-03, 18-02-01, 18-02-02

SHARPSGUARD® orange is a comprehensive range of containers for the disposal of sharps, excluding those contaminated with medicinal products and their residues

- ▶ A general purpose container that is a definite favourite throughout the hospital, in all wards and departments, as well as the community and other healthcare settings
- ▶ Our range includes the revolutionary SHARPSGUARD® EXTRA 8.5 (formerly SHARPSGUARD® 8.5), with a unique rotating chamber to help prevent the retrieval of contents. Ideal for areas where there is high public access or where children may be present
- ▶ To ensure the containers are safe and simple to use they now come with opaque coloured doors, clearly showing when the door is in the temporary or fully closed position

CONTAINER RANGE FOR SHARPS, INCLUDING THOSE CONTAMINATED WITH MEDICINAL PRODUCTS (NOT CYTOTOXIC OR CYTOSTATIC)

For incineration or other authorised process for EWC codes*:
18-01-01, 18-01-03, 18-01-09, 18-02-01, 18-02-02, 18-02-08

SHARPSGUARD® yellow is a similar range of containers to SHARPSGUARD® orange, with the added advantage that they can also be used to dispose of sharps contaminated with medicinal products and their residues (EWC 18-01-09), other than cytotoxic and/or cytostatic medicines

- ▶ This is the ideal container for those customers who are aggregating sharps waste, except cytotoxic and cytostatic, into one container
- ▶ The entire SHARPSGUARD® range comes with colour-coded lids and labels for ease of appropriate segregation and consignment; leading to good waste management and compliance with best practice and the current regulations

SHARPSGUARD®

CONTAINER RANGE FOR SHARPS, INCLUDING THOSE CONTAMINATED WITH CYTOTOXIC/CYSTOSTATIC MEDICINAL PRODUCTS

For incineration or other authorised process for EWC codes:
18-01-01, 18-01-03, 18-01-08, 18-01-09, 18-02-01, 18-02-02, 18-02-07, 18-02-08

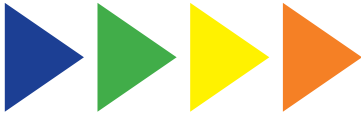

SHARPSGUARD® cyto with new distinctive purple-coloured lids is a comprehensive range of containers for the disposal of sharps including those contaminated with cytotoxic and/or cytostatic medicinal products and their residues.

- ▶ These containers are designed to be used throughout the hospital, in all wards and departments, as well as the community setting where cytotoxic and/or cytostatic medicines are in use
- ▶ For added protection, absorbent pads are now included in all containers
- ▶ All containers support the new colour-coded lids and labels for ease of segregation and consignment
