

Local Environmental Policy

Mauser UK Limited aim is to reduce any risk to the environment (air, water, land) from their activities.

It is company policy to work at all levels of the organisation to reduce and where possible eliminate waste and the excessive use of energy through a continuous improvement programme supported by a Group Management System based on the ISO14001 Standard.

It is our responsibility to:

- ◆ Comply with all statutory and other regulations controlling the Environment.
- ◆ Monitor and react to our energy usage.
- ◆ Take steps to eliminate or reduce waste generation.
- ◆ Ensure waste is segregated in preparation for collection.
- ◆ Develop and Implement a program of energy and CO₂ reductions.
- ◆ Dispose of the waste we produce using appropriate methods and using Licenced Waste Management Contractors.
- ◆ Seek expert advice from both internal and external consultants.
- ◆ Provide a cleaner, quieter, more pleasant environment.
- ◆ Ensure that the Environmental Management system remain effective by regular audit and review.

We aim to fulfil these responsibilities in conjunction with the objectives set out in our Environmental Program.

It is our employee's responsibilities to:

- ◆ Cooperate with the company to achieve these objectives.
- ◆ To work safely and efficiently to reduce the risk to the environment.
- ◆ To suggest ways in which we can improve.

'Being environmentally aware must be in everything we do and by everyone. It will be developed, monitored, challenged and maintained by our on-going improvement within our Management Systems'.

Details of our commitment will be communicated via the management board in the Production Hall.

Neil Coffey
Managing Director
Mauser UK Limited
